- ☆ Cake Pans
- ☆ Coloring Books
- ☆ Colored Pencils
- ☆ Board Games
- ☆ Codeapillar
- ☆ Launchpads
- ☆ GoChip Wands
- ☆ Graphing calculators
- ☆ Learning Resources STEM sets

ADDITIONAL TIPS

- Make sure all staff have some understanding of the items that circulate. We have had success with having one staff member take the item home and test it, then train all of the others.
- Purchase additional parts and batteries!
- Don't circulate anything that you are not prepared to lose.
- Schedule programming to go along with the items. Introduce patrons to the items, show them how to use them, and let them borrow items at the end of the program.
